Objective

Aspiring Full Stack Developer with 6 months of internship experience in building end-to-end web applications and a strong foundation in modern web technologies. Eager to deliver high-quality, user-centric software solutions while continuously enhancing technical and product development skills.

Education

Bharathidasan College of Arts and Science, Bachelor of Computer Applications — July 2022 – May 2025

- GPA: 88%
- **Coursework:** Web Development, Data Structures, Database Management Systems, Operating Systems

Vellalar Matric Higher Secondary School, HSC (Bio-Maths) — June 2021 – May 2022

- GPA: 82.83%
- **Board:** Matriculation

Vellalar High School for Girls, SSLC — June 2019 – May 2020

- GPA: 72.4%
- **Board:** State Board

Internship

Full Stack Developer Intern, Techvolt Software, Coimbatore — Dec 2024 - May 2025

- Developed **Ask Expert – Expert Cluster**, a full-stack academic support platform using PHP, MySQL, JavaScript, HTML5, CSS3, and Bootstrap to enable real-time student–expert collaboration.
- Engineered role-based dashboards with query management, custom assessments, answer submission, and performance tracking through responsive web interfaces.
- Implemented secure authentication, session management, and a scalable relational MySQL database, improving data integrity, application security, and overall platform reliability.

Key Skills: PHP • MySQL • JavaScript • HTML5 • CSS3 • Bootstrap • Responsive Web Design • Session Management • Relational Database Design

Projects

Ask Expert – Expert Cluster — github.com/rajeshwariravi-codes/expert-cluster

- Developed a full-stack academic support platform using PHP, MySQL, JavaScript, HTML5, CSS3, and Bootstrap, enabling real-time student–expert collaboration and test-based learning.
- Engineered role-based dashboards with query management, custom assessments, answer submission, and performance tracking through responsive web interfaces.
- Implemented secure authentication, session management, feedback systems, and a scalable relational MySQL database to ensure data integrity, security, and platform reliability.
- Tools Used: PHP, MySQL, JavaScript, HTML5, CSS3, Bootstrap

Technologies

Programming & Scripting: JavaScript, PHP
Web Development: HTML5, CSS3, Bootstrap, Responsive Web Design, Front-End Development, Back-End Development, Full-Stack Development
Database Management: MySQL, Relational Database Design, Query Optimization, Data Integrity
Backend & API Development: Node.js, Express.js, REST API Development, RESTful Services, JSON
Development Practices: Debugging, Problem Solving, Git, GitHub, Agile Methodology
Tools & Platforms: Postman, XAMPP, Basic AI-Assisted Development Tools, Microsoft Office (Basic for Documentation)

Academic Achievements

- Proficiency Award for consistent academic excellence and outstanding overall performance.
- 1st Place in the Intra-Collegiate Paper Presentation on “ChatGPT and AI Tools”, demonstrating research and technical communication skills.
- Presented a technical paper on “Edge Computing”, showcasing knowledge of distributed computing and cloud-edge technologies.
- Completed workshops in Full Stack Development and Office with AI, strengthening web development and AI-assisted productivity skills.
